

CCNS PLAYGROUND RULES

Please help us to maintain a safe playground by observing these rules before, during and after school hours.

GENERAL RULES

Children must be accompanied and actively supervised by an adult at all times. Parents and siblings are asked to refrain from using the playground during school hours so that our staff can adequately supervise their students during Gym, Lunch & Learn and playground time.

The playground closes at sunset. No littering and no pets, please.

No peanuts or peanut product snacks are permitted.

Gates must be kept closed at all times.

BOUNDARIES

Children should stay clear of the fences or gates in the play yard.

Children must remain in front of the sheds.

Children are not permitted to pick up or throw stones, tree branches, etc. anywhere on the property.

Our gates have Child Safety Locks. Please **do not** instruct your child in opening them.

SLIDES

One at a time, children are to climb up the ladder, sit on their bottoms and slide feet first.

Wait until the slide clears before sliding, and move quickly away from the bottom of the slide when finished.

SWINGS

One child on at a time except for the tire swing which holds three.

Children are to sit on their bottoms, facing forward.

Wait behind the black barriers for a turn.

Use the side entrance and exit areas for access to the equipment. The barriers have been lowered in these areas.

Step carefully and slowly off of the swings or raised barriers surrounding the swings.

Remain clear of the side poles.

TEETER TOTTER

A maximum of three children are permitted on each side. They are to remain seated and face forward at all times.

TRAIN and CLIMBING EQUIPMENT

Standing on top or jumping off of climbing equipment is unsafe. An adult must always be close by when children are climbing.

MRS. HERTKORN'S MUSICAL GARDEN

Drums are for playing only. Please no climbing.

BUTTERFLY GARDEN

Please watch and supervise children when exploring the butterfly garden. We have delicate plants and bird baths that can be easily damaged if trampled on or handled roughly.

Please remember that our playground equipment was designed primarily for 3-6 year olds.

Use extra caution with toddlers.
